REGIONAL CODEX HACKATHON VIETNAM

31 October 2026

Participant Brief Deck

REGIONAL CODEX HACKATHON VIETNAM

sea connecting the dots | OpenAI

Tooling Setup

Wifi Access

Guest Wi-Fi will be provided at the venue. Wi-Fi login instructions will be shared on the event day.

Codex Credits (USD 100) and API Credits (USD 100)

Each team member will be given USD 100 in OpenAI API credits and Codex credits for hackathon usage. Look out for **a setup email from OpenAI 1 day prior to the event** with instructions to activate your credits before the hackathon.

Note:

- Link/coupon code is unique to you and can only be redeemed once. Do not share it.
- Please install the Codex app prior to the event.
- Access and credits are provided for participants attending the full hackathon on 31 October, and may be revoked if a participant or team is no longer attending or leaving early.

Hackathon Rules

All work must be done on-site.

You may either:

01

Start from scratch

02

Build on an existing personal or open-source project

Building on existing project

Allowed only if:

- New extensions are **significant and substantial**. Only work built during the hackathon will be judged.
- Built in a new public repository.
- Link to the existing repository / repositories must be provided in your README and submission form.
- State clearly what was built during the hackathon in your README and submission form.

Any infringement of these rules may result in disqualification.

Build Directions

Autonomous & Adaptive AI 01

Agents that operate reliably without constant human oversight

What we're looking for

Is this an agent you can trust to run autonomously - and does it get better the more it runs?

AI-Native Products & Operations 02

Products, services, and operations fundamentally redesigned with AI - or something that simply couldn't exist before

What we're looking for

What can users or businesses now do that wasn't realistically possible before?

Deep Domain AI 03

AI that reflects how expert work is actually done - not a simplified version

What we're looking for

Would a domain expert trust this to do their job?

Please note that the hackathon idea and build directions on d-day should align with the ones in your initial registration.

Judging Criteria

01

Problem & Solution Fit

Is the problem real?
Is the solution the right answer to it?

02

Build Quality

Does it work and hold up under use?
We judge the product - not the pitch.

03

Insight & Originality

Is the approach genuinely novel, or just common industry practice?

04

Real-World Value

Based on the working demo - who benefits, and how significantly?

05

Alignment with Build Direction

Does the build meaningfully reflect at least one build direction?

06

Use of Codex

How deeply was Codex leveraged to build this product?

REGIONAL CODEX HACKATHON VIETNAM

sea connecting the dots | OpenAI

Presentation Format

APPLIES TO BOTH ROUNDS

6 min Demo / Pitch

2 min Q&A

Cover your **problem, solution, and use of Codex**. Judges will score against the criteria shared - grounded in what you built and can demonstrate.

What to Submit

Each team to make one **mid-time submission by 3:30 PM** and one **final submission by 5:00 PM** via Google Form. Late submissions will be disqualified.

01

GitHub Repo

New public repository created for this hackathon

02

Project Write Up (PDF)

Written summary of the problem, solution, build direction it aligns with, and how Codex was utilised.

03

Demo Link

Live demo or prototype link

04

Declarations

State any existing OSS / personal project used, and what was built exclusively within this hackathon.

Notes

01 Outfit

Please wear polite outfits.
No shorts, no flip flops.

02 Arriving at the building

Please refer to **this instruction** on parking lot and how to access the building.

03 Attendance

All team members must be present physically for the full day. Partial attendance or teams with fewer than 3 members will result in disqualification.

04 Check-in time

Check-in opens from 8:30am to 9:15am. Teams that have not fully checked in by then will be disqualified.

05 What to bring

Each member must bring their ID Card (or passport and valid visa for expats), as well as their own laptop and charger.
